5 x 9 = 45

Hive x Sign = Fort E Dive

# 5 (Hive) x 9 (Sign) = 45 (Fort E Dive)

Pictures

5 = Hive
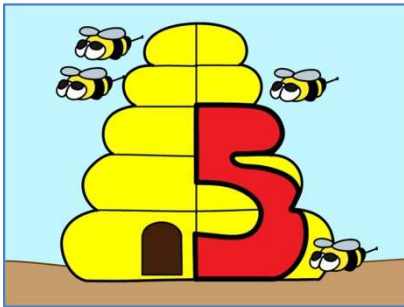

9 = Sign
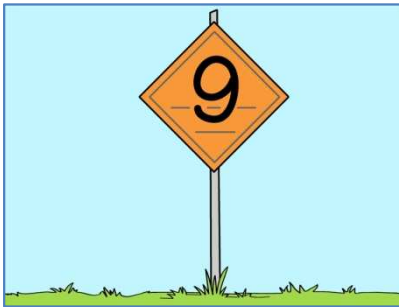

45 = Fort E Dive

Story

Once there was a beehive who dreamed of visiting Fort E. The hive thought and thought and finally came up with a funny way of getting into Fort E. He jumped onto the face of a nearby sign. The sign bent backward and then sprang forward. The hive zoomed into the air and dove over the high wall of Fort E.   The people in the fort were amazed the HIVE (5) could use a SIGN (9) to do a FORT E DIVE (45).
